Dear Soldiers:

I just want to take time out of my day just to thank you. I know what you are going through, watch movies and see what's really going on. The courage, Bravery, and Heart you guys have is incredible. Most of my generation have no clue what you guys go through, but if this means anything I love you and thankful for you.

I am very proud to be an American because you guys are very bold, and Fearless and protect us. Being a protector is not for everyone, I seen people go to training and quit. You guys don't quit and I know that because you are still gone fighting for our so called "freedom". As you can see, I'm very intelligent and I'm proud of that. My generation is getting brainwashed to me because they don't care about our troops fighting and willing to die for us. I want you to know I'm concerned and appreciate you guys all of you.

I will not take most of your time, I just wanted to let you know its people over here who cares about what you are doing. Thank you for reading my letter and I would really appreciate if you can write me back that would be wonderful. I hope you make it home safe and soon thank you for everything.

Sincerely,

X
Carlos Amos

Dear Soldiers:

Great Job!

I am a senior in high school and I express my deepest gratitude to you and all that you do. Courage starts within and your bravery outwardly shows your heroism. Your heroic deeds are truly honorable and noble.

I am grateful for your sacrifice of our country. The selflessness and bravery will never be forgotten. I will always reminisce about the sacrifices that are being made on our behalf, so that we can remain free and safe from those who would wish to do us harm. You are brave hearted and I express my appreciation for that and am forever indebted to you.

I contemplate of what it means to be free and what it takes to maintain that freedom. We thank you for your devotion and service, and the sacrifice you and your families have made on behalf of us, our country, and freedom. Safe travels and returns.

X DS only
Sincerely,

X

Dear Soldiers:

my favorite letter yet

? granite As we are able to walk the streets in peace and go to sleep without worry, others may take it for advantage. People can be so abstracted and not concerned about the things you do. Sending a text or typing a business letter can be as easy as taking the time out to write a lionhearted soldier like yourself a letter of gratefulness. I honor everything you do to defend me.

Very well said!

Some may not even understand the purpose nor appreciate what you do. I thank you for your strength every morning when you get up at the beginning of day to protect me. I salute you for your loyalty for risking your life for millions of people back home that may not think twice of what you endure. I praise you for walking up-right and standing proud. I pray for you, as my blessings travel thousands of miles to where you are, I ask God to keep you safe.

For whatever the purpose is I feel the need to tell you that you are important. This letter could have been selected to many but you are the one! I hope this letter reminds you how much you are appreciated and valued. I hope I'm not asking for too much but I'll love to receive a response letter back, just to know that my letter has made it to a heroic soldier hands. I hope this had made your day! Blessings to you and your family.

Sincerely,

Darius Bass

Dear Soldiers:

The new days in America are better today thanks to fellow soldiers. I really appreciate all of the soldiers who put their life on the line for American citizens and not even having the opportunity to see their families. It takes a lot of courage to go out there and fight for your country knowing you can lose your life.

~~Brave Heroic Magnanimous Gallant~~

I'm thankful for more many reasons thanks to the soldiers of United States of America (USA). Just the struggle that our country was none for in the past was very brutal. Thanks to soldiers being fearless and attending a life risking mission to fight for equal rights.

We all, as American citizens, really appreciate all the hard times our soldiers went through while fighting at war. God bless all the fellow soldiers who couldn't make back standing tall on their toes, rest easy, and I sent out prayers to the families who aren't able to see their companion come home.

X DS
Sincerely,

- Very outgoing

good!

Weakness: **Tardy**

To overcome my weakness I need to come to school on time every day. I need to start setting an alarm so I could get up on time. I also need to start going to sleep early as possible because I be staying-up too late. I be hungry when I wake up because I don't eat directly before I go to sleep because I be hungry in the morning. I say this because eating in the morning slows me down also. I will need to do all these things to make that weakness non existing.

Strengths

- Excellent Reader
- Good comprehension skills
- Excellent listener
- Problem solver
- Assisting others & compassion towards other

Great!

Weakness

- Math skills

Overcoming my poor math skills will be difficult, but I will overcome that weakness by making math apart of my life and incorporating it into my everyday life. I will learn the big picture of math and research the importance of it. I will take time out to study and improve my math skills. Most importantly I will ask questions so that I don't fall behind and become completely loss. Asking questions is the most important because it's something that a lot of us fail to do which makes learning something more difficult.

- Positive
- Inspiring
- Sincere

① Great!

WEAKNESS

- Procrastinating

For some reason procrastinating is one of my biggest weaknesses. I always seem to give in to. From a project that needs to be done or an essay that needs to be written. I always procrastinate. Sometimes I try to focus on what's important, but get easily side tracked by something opposite. But it's time for a change! Procrastinating is not responsible and not a good way to conduct business. I understand where I fall short at, so now it's time to execute the problem. Isolating myself from distractions such as friends or cell phone is a start to maintain my focus. Taking care of priorities, school work and other projects first beforehand and doing things right the first time will help me overcome my weakness. ①
